

Subject: Application for Senior Back-End Engineer (Java) Position

Dear Cristina Caetano;

I am excited to apply for the **Senior Back-End Engineer** position at Zazmic. With over **X years of experience in Java, Spring Boot, distributed systems, and SaaS architectures**, I have worked extensively on designing secure and scalable REST APIs, optimizing database performance with PostgreSQL and Redis, and ensuring software resilience in cloud-native environments.

I thrive in **fast-paced startup environments**, enjoy collaborating with cross-functional teams, and am passionate about **building maintainable and high-quality backend solutions**. I believe my expertise aligns perfectly with your team's goals in developing AI-powered sales coaching tools.

I have attached my resume for your review. Please let me know if there's anything else you need. Looking forward to the opportunity to discuss how I can contribute to your team.

Best regards,

Edwin Zamora
